

Robust functionality;

1. In landscape mode, the elements are not positioned well.

**[fixed] Please look at the attached screenshots**

Almost all functions work. But you should consider some below.

2. How to cancel creating a list? Climates, transports, and activities need to be labeled to be more clear.

**[fixed] Cancel button is added on every screen. Labels are added for climates, transports and activities.**

**Please look at the screenshots [2] and screenshots [3]**

3. Consider how to delete/update the trip list. Otherwise, users will have only one chance to create a list.

**[fixed] Update button is added to update the list. Delete button is added for deletion.**

**Please look at the screenshots [8,9,10,11,12]**

4. And, users should add more items on a specific list like, Gadgets -> Ipad

**[fixed] Added more items to each category.**

User interface;

The color scheme is Ok but selecting start/end date is not clearly visible.

**[fixed] Please refer the screenshot [1]**

Use empty spaces, especially on the lists page.

**[fixed] Spacing is increased.**

**Please look at the screenshots [7]**

Add titles for each page.

**[fixed] Titles and more text is added on each page for easy understandability.**

**Please look at all the screenshots**

Coding excellence;

Please don't forget to add your comments on the code.

**[fixed] Added comments on all the pages**

**Please look at the code**

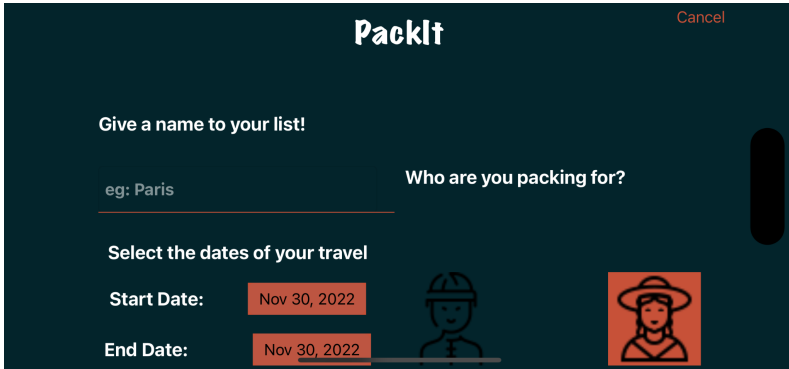

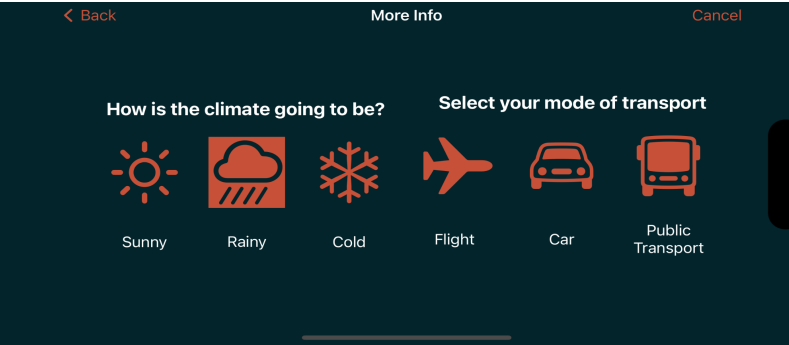

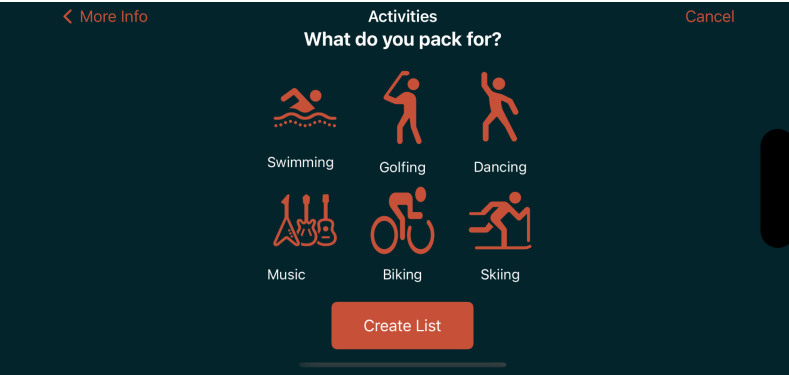

## Design specification comments:

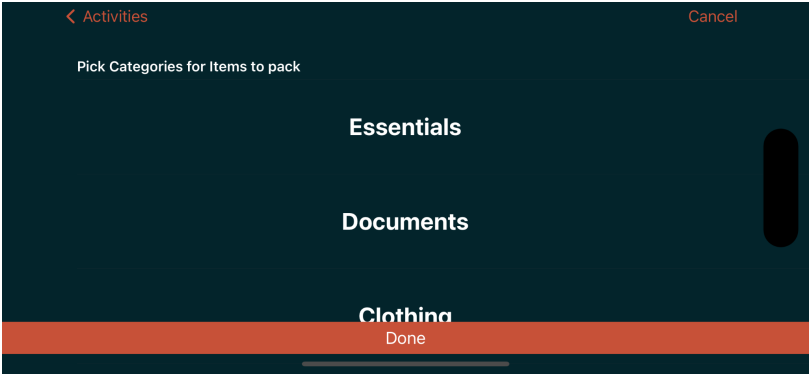

You mentioned earlier that I didn't fix the following comment:

Wireframe; what is the difference between screen2 and screen4? Please refer to Dr. Pavlidis's feedback during your presentation. Like, do everything in the opposite. All tabs on top can be at the bottom to make the app looks like a mobile app rather than a web app.

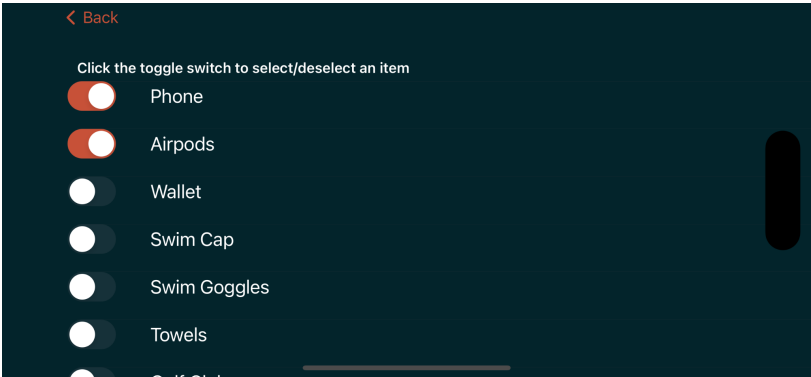

**[fixed] Please refer the updated design documents**

## Screenshots:

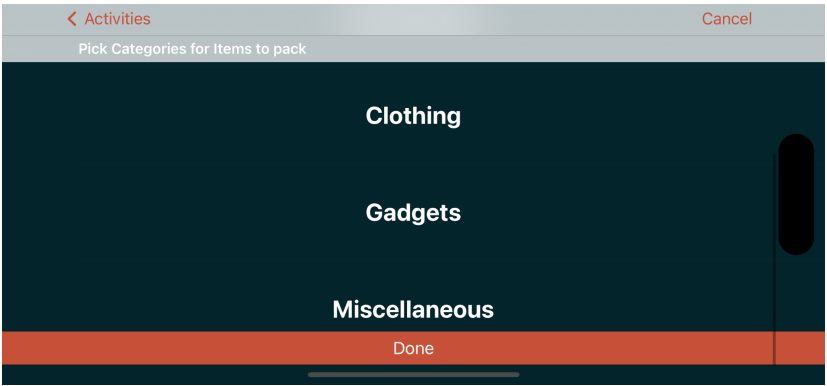

- Screenshot 1 shows the 'PackIt' app home screen. The title 'PackIt' is at the top right, with a 'Cancel' button next to it. Below the title, there's a section 'Give a name to your list!' with a text input field containing 'eg: Paris'. To the right of this is a section 'Who are you packing for?' with a placeholder icon. Below these is a section 'Select the dates of your travel' with 'Start Date:' and 'End Date:' labels, each followed by a date picker showing 'Nov 30, 2022'. To the right of the date pickers are two placeholder icons for people. A 'Cancel' button is at the top right.
- Screenshot 2 shows the 'PackIt' app screen for selecting climate and transport. The title 'More Info' is at the top center, with '< Back' on the left and 'Cancel' on the right. Below the title, there are two sections: 'How is the climate going to be?' and 'Select your mode of transport'. The climate section has three icons: Sunny, Rainy, and Cold. The transport section has three icons: Flight, Car, and Public Transport. A 'Cancel' button is at the top right.
- Screenshot 3 shows the 'PackIt' app screen for selecting activities. The title 'Activities' is at the top center, with '< More Info' on the left and 'Cancel' on the right. Below the title is a section 'What do you pack for?' with six icons: Swimming, Golfing, Dancing, Music, Biking, and Skiing. At the bottom is a 'Create List' button. A 'Cancel' button is at the top right.
